

Key Plant supply Turnkey installation for UK's first Wind Farm Project, Scroby Sands

Key Plant has recently completed the turnkey installation of Positioning Equipment to Isleburn Mackay & Macloed in Nigg, Scotland for the manufacture of the towers and monopiles for wind farms.

Key Plant supplied :

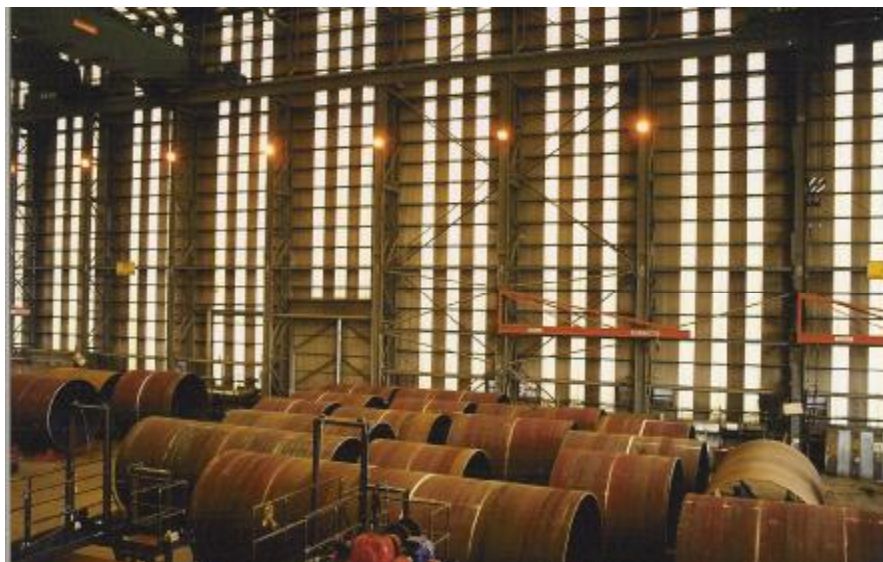

12 Column & Booms 6m x 5m fitted with Lincoln DC1000 and NA3 Welding equipment, flux recovery systems welding with Twin Arc.

18 Sets of Conventional Welding Rotators comprising of 12 sets of 60 Ton - 4 sets of 200 Ton - 2 sets of 400 Ton.

2 Twin Wire Sub Merged Arc Tractor Units with 800amp and 1000amp Power Sources.

The equipment was supplied and commissioned by Key Plant engineers working around the clock on site at Isleburn manufacturing facilities on the Cromarty Firth.

The Equipment was supplied to Isleburn through work partners Adlington Welding and WB Alloys.

Key Plant ability to supply the equipment in record time, 8 – 12 weeks from receipt of the order, ensured that there was only one company in the reckoning.....**Key Plant**.
