WPS-1200	32.50	826	23.50	604	45.25	1150	235

- Allows long work pieces / pipes to placed through the centre of the chuck while the pipe is clamped with 3 off gripper jaws.

Key Plant's Heavy Duty WPS Range Self Centring Gripper Chucks are available in 5 diameter ranges WPS-500, WPS-600, WPS-800, WPS-1000 & WPS-1200. They are ideal for use for welding and providing higher levels of efficiency and versatility in operations involving welding of fittings, flanges, etc.

- **Quickly & Easily Mounted** on any make of positioner, turntable or tailstock using three bolts provided with gripper.
- **Rugged Construction**, light weight providing a bigger working load because of the low gravitational centre.
- **Self Centering**, fast, smooth close/open action using lever to firmly lock or release work piece.
